Summary

Front-end-focused Software Engineer with 16+ years across the full development lifecycle. Evolved from UI/web development and PHP/MySQL/custom-CMS architecture into modern front-end engineering, now building high-performance, accessible, and scalable web applications with React and Vue 3. Strong grounding in system architecture, REST APIs, and database design.

Technical Skills

Core:

- HTML5 (semantic)
- CSS3 (SCSS, LESS, frameworks)
- RWD, Mobile-first, Pixel perfect
- Accessibility (a11y, WCAG, i18n)
- SEO (OpenGraph, Schema.org)

React ecosystem:

- React Router
- Next.js
- TanStack Query/Router/Table
- Zustand
- Custom Hooks

Vue ecosystem:

- Vue 3 (Composition API)
- Nuxt 2
- Vue Router
- Pinia, Vuex
- VueUse

APIs & Tools:

- REST
- OpenAPI/Swagger
- Axios/Fetch/Ky/XHR
- Vite/Gulp
- Git/GitHub/GitLab
- Auth JWT/TBA/CBA

Backend & CMS:

- MySQL/NoSQL/PostgreSQL
- PHP
- Node.JS/Express/Fastify (basics)
- Lua
- Smarty/Django
- WordPress/Joomla/OpenCart
- Custom CMS Development

Professional Experience

GlobalLogic Software Engineer

01/2022 - 07/2026 (4 years 7 mo.)

- Architect and build scalable, high-performance front-end applications using the React and Vue 3 ecosystems.
- Design reusable component libraries and custom hooks/composables that improve delivery speed and consistency across teams.
- Deliver accessible, SEO-optimized, internationalized interfaces following mobile-first, pixel-perfect standards, integrated with REST/OpenAPI services.
- Contribute to Git-based CI/CD pipelines and maintain technical documentation for cross-functional teams.

Beetroot Academy Front-End Teacher

02/2020 - Present (6 years 5 mo.)

- Co-author and teacher for the Front-End Development course; teach HTML5, CSS3, JavaScript, and modern framework fundamentals.
- Mentor students through project-based learning, code reviews, and career guidance into professional front-end roles.

Webtsy Front-End Web Developer

01/2020 - 12/2021 (2 years)

- Built responsive, cross-browser front-end interfaces with modern JavaScript, CSS frameworks, and REST API integrations.

webdesign.net.ua Full-Stack Web Developer

01/2011 - 12/2019 (8 years)

- Delivered full-stack projects spanning front-end interfaces and PHP/MySQL back-ends; designed and built custom CMS architecture.
- Website development of any complexity, from landing pages to complex data management systems.

Ki-Inform HTML Layout designer - Web Developer

01/2008 - 12/2010 (3 years)

- Progressed from layout design into full turnkey website development on the Bitrix CMS.
